Reasons for Allowance

Applicants' response to the last Office Action, filed December 30, 2004 has been entered and made of record.

The following is an examiner's statement of reasons for allowance:

Independent claims 1, 9, 16, and 23 are allowable over the prior art of record.

Claims 2-8, 10-15, 16-19, and 24-26 depend from claims 1, 9, 16, and 23 respectively, therefore, are allowed.

Independent claims 1, 9, 16, and 23 recite the limitations of: inspecting the (run. level) pairs in the original series of (run, level) pairs to determine whether or not modification of at least one (run, level) pair in the original series of (run, level) pairs would produce a desirable decrease in a number of bits required for variable-length encoding of said information despite introduction of noise into the variable-length encoding of said information; and modifying said at least one (rum level) pair to produce a modified series of (run level) pairs from the original series of (run, level) pairs. The combination of these features as cited in the claims in combination with the other limitations of the claims, are neither disclosed nor suggested by the prior art of record.

The closest reference of the article "Re-codable video" to Perreria et al discloses a forward looking encoder for video with staged coders to encode video frames.

However, he does not teach the limitations of cited above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
